**STATEMENT REGARDING
NUCLEOTIDE AND/OR AMINO ACID SEQUENCE
SUBMISSION REQUIREMENT**

In the Notification of Missing Requirements Under 35 U.S.C. 371 in the United States Designated/Elected Office (DO/EO/US), mailed 5 April 2002, the Applicants were instructed to submit a Sequence Listing as a separate part of the disclosure on paper copy or compact disk and to also submit a copy of the Sequence Listing in a computer-readable form.

The Applicants have reviewed the application, and believe that it does not include a nucleotide or amino acid sequence. For this reason, the Applicants believe that submission of a sequence listing is not appropriate for this application.

For the Examiner's information, histone H1-related sequences were known in the art at the time the application was filed (see, e.g., Isenberg, 1979, Annu. Rev. Biochem. 48:159-191).

If the Examiner continues to believe that submission of a sequence listing is appropriate, the Examiner is respectfully requested to point out the sequences disclosed in the specification that should be included in the listing.

Respectfully submitted,
Reiner Class, et al.
